

Communications in an Emergency

DELCOALERTS

DELAWARE COUNTY

Homeland Security & Emergency Management

Receiving Communications in an Emergency

Delco Alerts is an emergency alert system that allows you to opt in to receive notifications via phone calls, text messages and/or emails based on the locations (addresses) you enter into the system.

Please note that there are some portions of Westerville, Columbus and Dublin that are located in Delaware County but receive their EMA/9-1-1 service from those cities. Addresses in those portions of the county would not be able to sign up for Delco Alerts.

The system has been created by a company called Everbridge. Delaware County's Emergency Communications Department has contracted with Everbridge since May 2017. Sign up for this service at www.delcoalerts.org

For more information on the outdoor warning siren system, receiving emergency communications or severe weather preparedness, visit the Delaware County Office of Homeland Security & Emergency Management (DCOHSEM) on the web at www.delcoema.org

Like us on social media @delcoema or contact DCOHSEM by telephone at (740)833-2180.
